

XMI Toolkit for Rhapsody®

Changes Document

Changes

| Version | Defect # | Change |
|---------|----------|---|
| 7.6.1.1 | 154470 | Improvement of Enterprise Architect import <ol style="list-style-type: none"> 1. ActivityDiagrams are now split in new Diagrams if they describes more than one Activity 2. Some non-UML features are now managed <ol style="list-style-type: none"> a. OpaqueAction.effect b. Activity.incoming && Activity.outgoing c. UseCase(or Interaction).edge d. LiteralString.defaultValue e. InstanceSpecification.ownedAttribute f. Profile.nsPrefix 3. Duplicate initialNodes are converted to mergenodes |
| | 155644 | Added management of const modifier on Operations from Enterprise Architect |
| | 163928 | [Linux] Missing .xmi extension in export file name was creating error |
| | 176472 | Now user is informed at install and launch that java path is missing |
| | 178578 | [GUI] Adding entry point to Rhapsody tools menu for each import tool |
| | 178579 | Adding documentation specific to each import tool |
| | 179377 | Fixed import of flowcharts in case of transition from/to actionBlock |
| | 179916 | Fixed import of flows between ports of two classes |
| | 180368 | Improvement of the XMIToolkit Error management |
| 7.6.0.5 | 176157 | Fixed export of Activity Transition if source is a Block and target is external of it |
| 7.6.0.4 | 169478 | Roundtrip of SequenceDiagrams: now anonymous classifierRoles are kept anonymous |
| | 169460 | Linux: Fixed crash on export |
| | 167987 | Separate files export : fixed useless export of empty files |
| | 166862 | Tau : Fixed import of use case diagrams |
| 7.6.0.3 | 145593 | Linux 64bit: Error message on XML launching from Tools: <ul style="list-style-type: none"> • Remove preload of library libjsig.so • Remove error beyond closing of main window. |
| 7.6.0.2 | 167898 | General improvement of Diagram import <ul style="list-style-type: none"> • [Diagrams]Fixed import of SDActionBlock: position was wrong • [Diagrams]Fixed import of executionOccurrences graphnodes. Now an ExecutionOccurrence is drawn only if defined in the Diagram • [Diagrams]Fixed import of sequence diagrams: now lifelines are drawn first in order to allow dependent elements to be drawn on them. • [EA] Improved management of EA notes |
| 7.6.0.1 | 166117 | MIWG : XMIToolkit should be able to export without Rhapsody roundtrip profile |
| | 162518 | MIWG : TestCase 14, SysML Parametrics <ul style="list-style-type: none"> • Improved management of flow/connectors in SysML: connection to sysmlPort are kept |
| | 162515 | MIWG : TestCase 13, Complex InstanceSpecification Usage <ul style="list-style-type: none"> • Added Import/export of InstanceSpecifications |
| | 162514 | MIWG : TestCase 12, Complex ActivityDiagrams <ul style="list-style-type: none"> • Added management of flow final • Added management of swimlane.represents • Improved export of swimlanes content • Improved import of CallOperationAction (can have pins) • Added import of UML2.3 Actions • Added Import/Export of UMLActions using UMLAction Profile |
| | | |

| | | |
|-----------------|--------|--|
| | 162801 | Import of RSx Diagrams <ul style="list-style-type: none"> Improved import of State. Now search its name also in subregion. Improved graphical import of state containing one and only one region. Collaboration imported as Class Now a SD in a Class is not move into a package Development of a RSx plugin for diagram export |
| | 162803 | EA Import improvement <ul style="list-style-type: none"> Fixed import of #define elements Now import of constructor/destructor use the Rhapsody name convention (155645) |
| | 165352 | UML mapping improvement requirement from users feedbacks <ul style="list-style-type: none"> Improved export of Constraint. Were moved to nearest package even if the owner was able to contain it. Improved export of Port. Now Port contract exported only when required. Improved import of trigger. Now search its name also in event name. Now call/reception/creation events are created in the good context : Sequence diagram Added import of Component realization Fixed partial import of stereotyped elements: some stereotype application lost when profile not selected. Improved partial import: now able to detect if it is in a roundtrip context. |
| 7.5.3.6 | 140975 | [Install] Fixed XMIToolkit install if path contains Japanese characters |
| | 155368 | [UML 2.x] Fixed activity diagram roundtrip |
| | 155392 | [UML 2.x] Fixed import of new term stereotypes inheriting from another one |
| | 155656 | [UI] Fixed parsing of format argument |
| 7.5.3.5 | 155246 | [UML 2.x] Added management of ContextSpecification |
| 7.5.3.4 | 125044 | [UML 2.x] Fixed roundtrip of Flows into Classes : now the flow stays contained into its original Class |
| | 142156 | [SysML] Improved import of project when profile is unselected |
| | 142023 | [UML 2.x] Improved swimlanes import : now connectors can be drawn into a swimlane |
| 7.5.3.3 | 153378 | [SysML] UML 2.3 not used by default in SysML export |
| 7.5.3.2 | 27928 | [UML 2.x] Added export of InteractionOperator "loop" multiplicity. With usage of type "loop[(min[,max])]" |
| 7.5.3.1 | 152789 | [GUI] Fixed plugin mode, can be now launched several times in same session |
| | 152788 | [GUI] Fixed SysML profile not-embedded export |
| | 151430 | [SysML] Added warning message in import if SysML Profile not installed |
| 7.5.3.0 | 27986 | [UML 2.x] Added export/import of labels |
| | 125043 | [SysML] Added export/import of implicit Constraint Parameters |
| | 125044 | [SysML] Improved import/export of BindingConnectors |
| | 142023 | [UML 2.x] Added import of Swimlanes, include: <ul style="list-style-type: none"> Swimlane import/export improvement InterruptibleRegion import/export addition |
| | 142156 | [SysML] Added in import automatic application of SysML Profile in Project |
| | 152252 | [UML 2.x] High SysML improvement based on MIWG <ul style="list-style-type: none"> Updated SysML to SysML 1.2 Added management of Assembly Connectors Improved management of Flow Properties Added management of VerdictKind Added management of Requirement containment Added Application of RequirementRelated stereotype Fixing isConjugated feature updated GUI |
| | 152254 | [UML 2.x] Added integration of UML 2.3 import/export |
| | | |
| 7.5.2.10 | | [Doc] Update UserGuide for SPARX Enterprise Architect and IBM RSA RealTime imports |
| 7.5.2.9 | 148290 | [EA] Added import of SPARX Enterprise Architect diagrams |

| | | |
|----------------|--------|--|
| | 148293 | [EA] Improved SPARX Enterprise Architect import concerning: <ul style="list-style-type: none"> - Added import of Boundaries as graphical Notes - Added import of EAPrimitiveTypes - Added import of EA Profiles, accept stereotypes/tags with spaces - Improved import of Port's Contracts (and relationships to Interfaces) - Improved Port on parts : creation/modification of part's type - Added graphical import of CombinedFragments and their InteractionOperands - Removed useless classes and graphnodes from lost/found messages - Added import of Operation on messages - Added import of CallOperations - Added import of TimeEvent - Improved import of SendEvent - Improved import of ReceiveEvent - Added join/fork distinction - Added import of subStatemachiens with their Enter/ExitPoints - Improved import of Ports : now imported as implicit ports |
| | 148294 | [RSARte] Improved of RSA RTE profiled model, now oriented to Rhapsody modelling structure |
| | 148298 | [UML 2.1] Fixed import of Component, now mapped to Class |
| | 148299 | [UML 2.1] Now import accepts simple Realization for InterfaceRealization |
| 7.5.2.8 | 142733 | [UML 2.1] Fixed export of usecases unidirectional association ends |
| 7.5.2.7 | 142092 | [Linux] Fixed User Interface freezes in import/export |
| 7.5.2.6 | 142733 | [UML 2.1] Fixed export of association between Actors and Usecases |
| 7.5.2.5 | 139716 | [UML 2.1] Unable to export big models |
| 7.5.2.4 | 140556 | [SysML] Fixed export of classifier features on SysML Packages |
| | 140151 | [UML 2.1] Fixed import of nested elements for implicit objects |
| | 138400 | [UML 2.1] Integration of new stereotypes for interoperability |
| | 140913 | [UI] Fixed unit selection in import on specific pattern of separate files |
| 7.5.2.2 | 133387 | Now the installer is compliant with Windows7 |
| 7.5.2.1 | 125907 | [UML 2.1] Now SequenceDiagrams into classifiers are managed |
| | 137182 | [UML 2.1] Fixing transitions with guard set to TRUE |
| | 137169 | [UML 2.1] Improving memory consumption in import by closing diagrams |
| | 134397 | [UML 2.1] Addition of the C# predefined types management |
| | 132922 | [UML 2.1] Import of RSA RTE profiled model |
| | 132918 | [UML 2.1] High improvement implied by Model Interchange Working Group <ul style="list-style-type: none"> - Transition guards - ExecutionOccurrences - Associations - Import of ValueSpecificationAction - Port aggregation kind - Port contracts roundtripping - Attribute default value in case of Enumeration type - InstanceValue management - Property navigability in case of non structuredClassifiers - Import of submachines not nested into an higher one - InterfaceRealization nested into a Package - Profile import improvement (accepting new OMG standards) |
| | 132917 | [UML 2.2] Added import/export of UML 2.2 files |
| | 126081 | [Doc] Fixed UserGuide screenshot mistake |
| | 132919 | [UML 2.1] Now AcceptEventAction and AcceptTimeEvent are managed |
| | | |
| 7.5.1.6 | 136213 | [Linux] "command not found" message in shell during Toolkit execution |
| | 132353 | [UML 2.1] Error when exporting partial model containing PanelDiagrams |
| 7.5.1.5 | 127121 | [UML 2.1] Guard "true" added to Activity flows after export+import |
| 7.5.1.4 | 126937 | [UI] Error on SysML project when SysML profile is not selected for export |
| | 125687 | [UI] The checking of the absence of the file for export takes a lot of time |

| | | |
|-----------------|--------|---|
| | 125013 | [UML 2.1] Return value of messages are lost after export+import |
| | 124781 | [UI] Now the last XMI File path is registered |
| | 19301 | [Tau]: Dependencies not connected to edges of Packages on OMD from Tau |
| | 125907 | [UI] UML 1.3 Additional arguments not used by the rules |
| 7.5.1.3 | 124763 | [UML 2.1] The SysML profile appears twice in the list of units to export |
| 7.5.1.2 | 124768 | [UML 2.1] Wrong text in the 'Units selection' page during import from XMI |
| | 124773 | [UML 2.1] Merging methods create an error |
| | 124807 | [UML 1.3] Multiple errors in Export on properties |
| | | [UML 2.1] Added Partial Export feature |
| 7.5.1.1 | | [UML 2.1] Added Partial Import feature |
| | | [UML 2.1] Added File fragmentation option in export |
| | | [UML 2.1] Added merging methods in import |
| | | Updated User Interface |
| | | [UML 2.1] Improvement of the interoperability through MIWG (http://www.omgwiki.org/model-interchange) : Class Diagrams |
| | | [UML 2.1] Fixed export of Transition's guard (now set to True) |
| | | [UML 2.1] Fixed export of CallBehaviour (now manage inputPins) |
| | 49381 | [UML 2.1] Added management of the new tag expressivity (multiplicity, metaclass typing, valuespecifications) |
| | 124559 | [UML 2.1] Fixed export/import of local tags on same named elements |
| | 123145 | [UML 2.1] Fixed import of ItemFlows |
| | | [SysML] SysML rules are now compliant with SysML 1.1 |
| 7.5.1.0 | 122606 | [UML 2.1] Fixed management of root elements in import |
| 7.5.0.11 | 122204 | [UML 2.1] Fixed warning popup when using "Import as new project" feature |
| 7.5.0.10 | 226031 | [UML 2.1] Fixed import of standalone profiles |
| 7.5.0.9 | 224045 | [UML 2.1] Import of substatecharts with enter/exit points fails |
| 7.5.0.8 | 223785 | [UML 2.1] Error on export/import sequence diagrams with "import in new Project" |
| 7.5.0.7 | 223431 | [Tau] RhapsodyTAU: Crash on TAU project importing |
| | | [UML 2.1] Added import in a new project |
| 7.5.0.6 | 223168 | Updated Tau icons |
| | 222630 | [UML 2.1] Fixed import of Control and Object flows |
| | 222324 | Updated exe icons |
| | 221865 | [UML 2.1] Fixed import of Flowchart on Operations |
| | 221852 | [UML 2.1] Fixed import of Join Sync Bar and Fork Sync Bar |
| | 221556 | [UML 2.1] Fixed import of subActivities and substatecharts |
| | 221014 | [SysML] Fixed export of classes stereotyped "Activity" |
| | 220530 | [SysML] Fixed import of Constraint parameters which had a 'standardPort' stereotype after import |
| | 218054 | [Linux] Fixed writing of temporary profiles which created access errors |
| | 217994 | [UML 2.1] Added mapping of Main Behavior |
| | 217992 | [UML 2.1] Fixed export of Accept event action |
| | 215890 | [UML 2.1] Fixed export of specific patterns of stereotype applications |
| | 222423 | Help contents added and About box removed in GUI |
| 7.5.0.5 | 221437 | [UML 1.3] Fixed regression on statecharts and events owner |
| 7.5.0.4 | 220789 | [UML 2.1] Fixed import of references to types with forbidden characters (char*) |
| 7.5.0.3 | 220663 | [UML 2.1] Added Unicode languages management |
| | 218051 | [Linux] Fixed SysML management for non-root users |
| | 217669 | [UML 2.1] Fixed export of Distiller sample |
| | 209664 | [UML 2.1] Added import/export of Components and Component Instances |
| | | Added allignement with Rhapsody Gemini |
| 7.5.0.2 | | [UML 2.1] Improved Enterprise Architect compatibility |
| | | [Linux] Fixed stability problem when mixing export/import |
| 7.4.5 | 217785 | [Linux] Fixed crash when importing several projects on Red Hat5 |
| | | [UML 2.1] Improved MagicDraw compatibility |

| | | |
|----------------|--------|--|
| 7.4.4 | 217730 | [Java IBM] Fixed errors on export/import to XMI of Elevator sample |
| 7.4.3 | 217732 | [Java IBM] Fixed errors on import from XMI of SysMLHandset sample |
| | 217746 | [Java IBM] Fixed errors about triggers on XMI import of Radio sample |
| | | [UML 2.1] Added management of Stereotype's attribute typed to Datatypes |
| 7.4.2 | 217687 | [UML 2.1] Fixed NullPointerException when reading some EA xmi. |
| | | [UML 2.1] Fixed export using both SysML and Standard Profile Feature |
| 7.4.1 | | Fixed problem creating errors when launching several times the XMIToolkit |
| | | [UML 2.1] Fixed import of OutputPins |
| | | [UML 2.1] Added reading of XMI UML 2.1 provided by Enterprise Architect |
| | 109856 | [UML 2.1] Added reading of XMI UML 2.1 provided by MagicDraw |
| | | [UML 2.1] Improving Error management for SysML |
| | 216794 | [UML 2.1] Fixed import of Tags on Dependencies |
| | 216557 | [UML 2.1] Fixed import of InformationFlows in SysML |
| | 216538 | [UML 2.1] Fixed import of packages with space in their names |
| | 215855 | [Linux] Fixed crash which could happened on Java 1.5 |
| 7.3 1.2 | 215890 | [UML 2.1] Fixed import of XMIs, with specific StereotypeApplication, which could crash the Toolkit |
| 7.3 1.1 | | [UML 2.1] Improving SysML export for SysML ItemFlows |
| | | [UML 2.1] Added export of realized flows |
| 7.3 1.0 | 215589 | [UML 2.1] Fixed import of complex patterns of containment |
| | 212977 | [UML 2.1] Fixed export of tags defined into a unloaded unit |
| | 108944 | [UML 2.1] Fixed import of Relation between implicit parts |
| | 213194 | [UML 2.1] Fixed import of Unidirectional Relations to a Classifier not contained into a Package |
| | 215360 | [UML 2.1] Fixing import of InstanceSpecification Extension |
| | | [Tau] Now Simple and Shared Attributes to Classifiers are mapped to Relation |
| | | [Tau] Now Generalization between Operations is mapped to Dependency <<Realization>> |
| | | [Tau] Now ActionSymbols in SequenceDiagrams are prefixed by <<Action>> |
| | | [UML 2.1] Added import of PackageImport |
| | | [UML 2.1] Import : Now containment of unmanaged Classifiers are mapped into a Package |
| | | [UML 2.1] Fixed import of StateVertex with same name |
| | | [UML 2.1] Added the Standard Profile Export/Import feature |
| | | [UML 2.1] Improving import of Expressions |
| | 215359 | [UML 2.1] Added management of ModelLibrary stereotype |
| | | [Tau] Improving import of SequenceDiagrams |
| | | [Tau] Added import of SubActivities and SubStatecharts |
| | | [Tau] Added managing of StructureDiagrams |
| | 214604 | [UML 2.1] Fixed import of Statechart's transitions |
| | | Fixing an error "setCollectionCashingMode" appearing on some new Rhapsody versions |
| | | [Tau] Added managing of the decision into a DecisionNode in ActivityDiagrams |
| | | [Tau] Now Actions are their name shown in ActivityDiagrams |
| | | [Tau] Now ObjectNodes are their name shown in ActivityDiagrams |
| | | [Tau] Added managing of subactivities in ActivityDiagrams |
| | | [Tau] Added import of SequenceDiagram, ActivityDiagram, StateDiagram |
| | | [Tau] Added import of ClassDiagram, PackageDiagram, UsecaseDiagram, DeploymentDiagram. |
| 7.2 1.5 | | [UML 2.1] Fixed export of tag's default value |
| 7.2 1.4 | 213011 | [UML 2.1] Fixed export/import of flowport's properties |
| | 212833 | [UML 2.1] Fixed export of tags typed to Float |
| 7.2 1.3 | | [Tau] Improving import of Tau models |
| 7.2 1.2 | 105611 | [UML 2.1] Added managing of stereotype extension mapping |
| 7.2 1.1 | 211050 | [UML 2.1] Added managing of tag typing |
| | 209414 | [UML 2.1] Added export/import of Flow ports |
| 7.2 1.0 | 106698 | [UML 2.1] Added managing of action Pins and action Parameters |

| | | |
|-------------------------------|--------|--|
| | | [UML 2.1] Added managing of SysML Profile |
| | 103136 | [UML 1.3] Added managing of Main statechart |
| | 104866 | [UML 2.1] Fixed import/export of System border in sequence diagram |
| | 211051 | [UML 2.1] Added : Now a subprofile of a profile is imported as a package (not flatten) |
| | 209590 | Linux: incorrect XMI version in "About" Windows |
| 7.1 build 1.12 | 105258 | The "XMI Version" field was too small in Linux Java JDK 1.5 |
| 7.1 build 1.11 | 103230 | [UML 2.1]Fixed export/import of usecase's operations |
| 7.1 build 1.10 | 103136 | [UML 1.3]Added management of main behaviour for multiple statecharts |
| | 103062 | [UML 1.3]Fixed import of Termination State's name |
| | 101017 | [UML 2.1]Added management of Receptions |
| | 98243 | [UML 1.3]Fixed import of requirement's anchors |
| | 96651 | [UML 1.3]Fixed management of stereotypes to files : now the file is not lost in import |
| | 96641 | [UML 1.3]Fixed import of associations to Files |
| | | Repackaging |
| 7.1 build 1.9 | 105417 | [UML 2.1]Fixed export of Project stereotypes |
| 7.1 build 1.8 | 105635 | [UML 2.1]Added management of Triggered Operation |
| | 104866 | [UML 2.1]Added management of System border in sequence diagrams |
| | | [UML 2.1]Added management of event inheritance |
| | 105634 | [UML 2.1]Fixed export of statecharts contained into a File |
| | 105613 | [UML 2.1]Fixed export/import of stereotypes extending "Object_Type" on Files |
| | 105609 | [UML 2.1]Fixed export of stereotypes with same qualified name |
| | | Fixed linux license checkin/checkout |
| 7.1 build 1.7 | | Updated linux requirements section in documentation |
| 7.1 build 1.6 | | [UML 2.1]Fixed import of inherited tags from already existing Profiles |
| 7.1 build 1.5 | 103172 | [UML 2.1]Fixed import of target of send actions |
| | | [UML 2.1]Added export/import of argument's value in send actions |
| | | [UML 2.1] Fixed import of referenced sequence diagrams from use cases |
| 7.1 build 1.4 | 96568 | [UML 2.1]Fixed import of reference activity |
| | 103922 | [UML 2.1]Fixed import of Activity Diagrams containing actions with same name |
| 7.1 build 1.3 | 103461 | Fixed : Cannot run XMI import/export from command line |
| | 103348 | [UML 2.1]Fixed : Redundant events containing class names were added after import |
| | 103222 | [UML 2.1]Fixed import of And States with static reactions |
| | 103221 | [UML 2.1]Fixed import of inverse Relation of an Instance |
| | 103217 | [UML 2.1]Fixed import of Attribute visibility |
| | 103216 | [UML 2.1]Fixed useless creation of package 'ImportUML21' when it is not necessary |
| | 103191 | [UML 2.1]Added import of flowchart contained by a package function |
| | 103179 | [UML 2.1]Fixed import of the 'Contract' field of port |
| | 103137 | [UML 2.1]Fixed import of multiple ActivityDiagram on classifiers |
| | 103124 | [UML 2.1]Added export/import of Files in Packages |
| | 103109 | [UML 2.1]Fixed import of predefined Stereotypes : some of them were created twice |
| | 103068 | [UML 2.1]Fixed import of Parts of objects/blocks |
| | 103061 | [UML 2.1]Fixed export/import of statechart connectors |
| | 103054 | [UML 2.1]Fixed import of Call operation |
| | 103053 | [UML 2.1]Fixed export/import of diagram and condition connectors |
| | 103050 | [UML 2.1]Now transition guard are no more displayed if their value equals to 1 (useless) |

| | | |
|------------------------------|--------|--|
| | 102393 | [UML 2.1]Fixed import of Event parameters |
| | 101718 | [UML 1.3]Fixed export of dependencies to unreachable elements |
| | 101024 | [UML 2.1]Fixed import of Message Arguments on Sequence Diagram |
| | 100274 | [UML 2.1]Added export/import of activity diagrams under packages |
| | 98243 | [UML 2.1]Fixed export/import of Requirement anchored links |
| | 97321 | [UML 1.3]Fixed import of association classes between files |
| | 95470 | [UML 2.1]Added export/import of Referenced sequence diagrams under use cases |
| | 103208 | [UML 2.1] Fixed import of Models with a name beginning by a number |
| 7.1 build 1.2 | 103068 | [UML 2.1] Fixed import of part in Objects and several bugs on Object relationships |
| | 102393 | [UML 2.1] Fixed import of Event Parameters |
| 7.1 build 1.1 | 97389 | [UML 2.1] Fixed export of Node |
| | | [UML 1.3] Fixed import of imbricated Parts |
| 7.1 build 1.0 | | Now logs are written in the XMI Toolkit directory created in the personal folder |
| | | Added import/export of Tau Models |
| | | [UML 2.1] Fixed import of Stereotype when its owner is not a Profile |
| | | [UML 2.1] Fixed import of links |
| | | [UML 2.1] Fixed import of return value of Operation |
| | 101630 | [UML 2.1] Fixed import/export of provided and required interfaces in Ports |
| | | [UML 1.3] Fixed export of dependencies to Sequence and Collaboration Diagrams |
| | 101322 | Fixed import of Object nodes |
| | 101617 | Fixed export of Send Actions |
| | 101626 | [UML 2.1] Fixed export/import of Ports in Interfaces |
| | 101628 | [UML 2.1] Fixed import of multiplicity field in Ports |
| | 101752 | [UML 2.1] Fixed export of enter/exit point in nested And-states |
| | 101754 | [UML 2.1] Fixed import of And-states |
| | | [UML 2.1] Added Import/Export of behavioralDiagrams collection in Classifiers and Packages |
| | | [UML 1.3, UML 2.1] Added Import/Export of CallOperations |
| | | [UML 1.3] Added Import/Export of behavioralDiagrams in Classifiers |
| | | [UML 2.1] Added Import of Diagrams (ClassDiagrams and UseCaseDiagrams) |
| | 101153 | Fixed : The toolkit was enable to find his default properties |
| | 101164 | Fixed a problem with the window's size |
| | 101209 | [UML 2.1] Fixed : The project name is changed after import from XMI |
| | | [UML 2.1] Fixed a bug which transformed a composition to a part |
| | 97609 | [UML 2.1] Fixed import of objects exposed to a class |
| | 97614 | [UML 2.1] Fixed import of links between parts |
| | 97624 | [UML 2.1] Fixed import : Several elements missed their stereotypes |
| | | [UML 2.1] Fixed a bug of classifiers contained by another |
| | | [UML 2.1] Added more explicit error messages |
| | | [UML 2.1] Fixed a bug with tags containing a space in their name |
| | | [UML 2.1] Fixed bugs with setting name of some elements |
| | | [UML 2.1] Fixed import of operations with a forbidden name (as 'register' in C++) |
