

## Optim

**Drop-In ID:** OPDM-11.03.00.08-018

**Product:** IBM® InfoSphere® Optim™ Designer

**Release:** 11.3.0.8

**Problem ID:** IP24365

**Date:** November 8, 2021

**Description:** This iFix includes corrections for the following problem:

- In Optim Designer, when creating or editing an Extract or Archive service, if there are tables referenced in the service, that have two or more relationships with same parent and child tables, the AD used in the service may show erroneous relationships with an "Unknown" status. Editing the same Extract or Archive service, or creating a new one, in Optim Classic works correctly.
- After applying this iFix, new Extract and Archive services, with a new named or LOCAL AD, display the relationships correctly. If a previously created service or name AD exhibits the erroneous relations, they will need to be recreated.

**Prerequisites:** IBM® InfoSphere® Optim™ Designer 11.3.0.8.20191101\_0906 with OPDM-11.03.00.08-003, and IBM® Installation Manager 1.8.2 or later.

**Co-requisites:** None.
